ABSTRACT. Inter- and transdisciplinarity are analyzed as study categories and practices of contemporary science, used for the solution of problems that the disciplines cannot solve by temselves.

### **La interdisciplinarietà y la transdisciplinarietà en las**

Underfloor heating and cooling is a form of central heating and cooling which achieves indoor climate control for thermal comfort using conduction, radiation and convection. The terms radiant heating and radiant cooling are commonly used to describe this approach because radiation is responsible for a significant portion of the resulting thermal comfort but this usage is technically correct ...
