Wheeler's Dental Anatomy, Physiology and Occlusion

Despite its large size, the overall appearance of Deinosuchus was not considerably different from that of modern crocodylians. Deinosuchus had an alligator-like, broad snout, with a slightly bulbous tip.

Deinosuchus - Wikipedia

A tooth (plural teeth) is a hard, calcified structure found in the jaws (or mouths) of many vertebrates and used to break down food. Some animals, particularly carnivores, also use teeth for hunting or for defensive purposes.
