Causes. In understanding the effects of over-consumption, it is pertinent to understand what causes the phenomenon. There is a spectrum of goods and services that the world population constantly consume.

## **Overconsumption - Wikipedia**

World energy consumption is the total energy used by the entire human civilization. Typically measured per year, it involves all energy harnessed from every energy source applied towards humanity's endeavours across every single industrial and technological sector, across every country. It does not include energy from food, and the extent to which direct biomass burning has been accounted for ...
