

### **loss reserving an actuarial pdf**

Loss reserving refers to the calculation of the required reserves for a tranche of general insurance business. It includes outstanding claims reserves.. Typically, the claims reserves represent the money which should be held by the insurer so as to be able to meet all future claims arising from policies currently in force and policies written in the past.

The Casualty Actuarial Society is a professional organization of actuaries whose purpose is the advancement of the body of knowledge of actuarial science applied to property, casualty, and similar risk exposures.

### **Casualty Actuarial Society**

An actuarial reserve is a liability equal to the actuarial present value of the future cash flows of a contingent event. In the insurance context an actuarial reserve is the present value of the future cash flows of an insurance policy and the total liability of the insurer is the sum of the actuarial reserves for every individual policy.
