A kitchen is a room or part of a room used for cooking and food preparation in a dwelling or in a commercial establishment. A modern middle-class residential kitchen is typically equipped with a stove, a sink with hot and cold running water, a refrigerator, and worktops and kitchen cabinets arranged according to a modular design. Many households have a microwave oven, a dishwasher, and other ...

A house is a building that functions as a home. They can range from simple dwellings such as rudimentary huts of nomadic tribes and the improvised shacks in shantytowns to complex, fixed structures of wood, brick, concrete or other materials containing plumbing, ventilation, and electrical systems. Houses use a range of different roofing systems to keep precipitation such as rain from getting ...

The microwave, trust me as a kitchen design professional for many years, is an appliance that is very tricky to place in the kitchen. One of the pros of the microwave as opposed to other appliances is that there are quite a wide range of sizes available to either build it into cabinetry or, in the case of the countertop model, simply put it on a shelf.
